Problems trying to view your results using Internet Explorer versions 10 or 11.

Our Results Online website currently does not support Internet Explorer 10 or 11, and you may encounter difficulties logging in if you are using one of these browsers. After entering your details and clicking the **Log in** button, you may find that you are returned to the login page again instead of entering the site.

To fix this problem, please ensure that you have **compatibility view** enabled in your browser. You can enable this by clicking on the icon in the address bar as shown below.
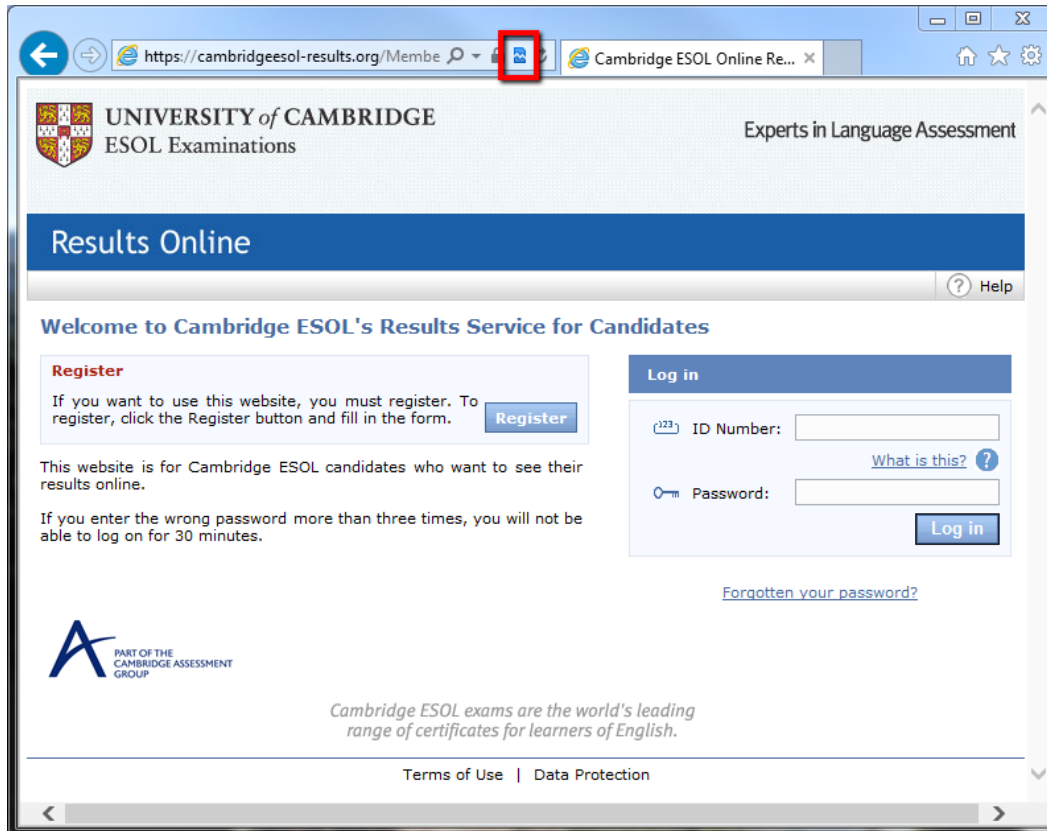

Alternatively you can use an earlier version of Internet Explorer, or a different browser such as Mozilla Firefox or Google Chrome which are both supported.

- Download Firefox
- Download Chrome

We are currently working on a fix for this issue, thank you for your patience in the meantime.
